SUMMARY

- Reduced reporting time by 15% and improved processes across 3+ key university operations by developing automated Power BI dashboards and reports to analyze and track student data.
- 7+ years driving business analysis and UX strategy, leading internal development teams to deliver 5+ enterprise-level software solutions across finance, healthcare, and operations sectors.

TECHNICAL SKILLS

Power BI (DAX, M), Data Modeling, SQL, Python, Data Visualization, ETL

EDUCATION

University of Louisville, Louisville, KY

Master of Science in Business Analytics

Expected: July 2026

PROJECT EXPERIENCE

Healthcare Price Transparency Analysis, Python, Power BI

June 2026

- Evaluated pricing data across 3 Louisville hospitals, covering 48 procedures and 46 payers.
- Engineered star schema data model and built an interactive Power BI dashboard, uncovering a 3x gap between negotiated rates and gross charges.

Heart Disease Mortality Analysis, Excel, Datawrapper

March 2026

- Examined CDC WONDER mortality data spanning all 120 Kentucky counties (2019–2024).
- Developed a choropleth map highlighting counties with mortality rates up to 2.5x the national average, supporting public health decision-making.

PROFESSIONAL EXPERIENCE

Data Analyst Intern, University of Louisville, Louisville, KY

Sep 2025 – Present

- Analyzed large qualitative and quantitative datasets to identify trends that improved planning and reporting effectiveness by 15%.
- Built 7+ interactive Power BI dashboards using KPI metrics to monitor event attendance and coaching outcomes.
- Automated recurring reporting workflows with Python and Excel, reducing manual effort and improving reporting accuracy.

Data Analyst Intern, BroadStreet Institute, WI(Remote)

Feb 2026 – May 2026

- Analyzed CDC WONDER mortality data (2019–2024) using Excel to identify ischemic heart disease trends across counties in multiple US states.
- Presented analytical findings and visualizations to public health stakeholders, supporting data-driven intervention planning.

User Experience Designer, Saddleback Church, CA(Remote)

Jul 2023 – Jun 2024

- Conducted 15+ stakeholder interviews and analyzed qualitative and behavioral data to improve product usability and feature adoption.
- Tracked and analyzed engagement metrics and delivered reports that helped leadership optimize communication and outreach.

Business Analyst, Novelty Technology LLC, Kathmandu, Nepal

Aug 2017 – Jul 2023

- Analyzed sprint and operational data, increasing development velocity by 30% while reducing operational costs by 20%.
- Led sprint releases and managed comprehensive user documentation, user manuals, and training materials
- Managed requirements documentation and collaborated with cross-functional teams throughout product delivery.
- Improved user experience and system accuracy by translating behavioral data into targeted product enhancements.
